

Report Number: 28415

# ***KLEEN WEED***

## ***LIQUID VEGETATION KILLER***

### ***Ready To Use***

***For total weed control around the workplace where no plant growth is desired. Controls blindweed, common mullein and other hard to kill weeds. Prevents plant growth for up to one year.***

***KLEEN WEED is a non-selective product intended for use without further dilution. For best results, apply to bare ground or when weed growth is just starting. Weeds taller than 4-6 should be hoed before treatment or it may be necessary to make a second application. A second application may be necessary to control deep rooted perennial weeds. Use for bare ground vegetation control in driveways, brick walls, paths, blacktop, parking areas, along fences and curbs, around buildings and under graveled pathways where plant growth has come through these surfaces.***

- ***One gallon covers up to 400 square feet***
- ***Prevents plant growth for up to one year***
- ***Non-Selective Weed & Grass Killer***
- ***For industrial sites along fence rows, parking lots and to create firebreaks around structures in potential fire areas***
- ***Fast acting double killing action - it kills by contact and root absorption***
- ***No mixing necessary***
- ***Controls hard-to kill perennials and woody plants such as poison oak, honeysuckle and blackberry***
