

The Green Cartridge

Non-Chemical Retrofit Cartridge for Non-Water Urinals (Customer Price Sheet)

QTY_____ GC 101 \$99

Retrofit for Falcon™, Sloan™
Eco Tech™, and Rubbermaid™

QTY_____ VC105 \$39

Core Replacement

Description

This patented chemical free cartridge is made of white ABS plastic and is a retrofit for existing urinals. The removable core comes with two flexible silicon skirts, debris screen (also the core removal tool) and is seated below a dome attached with a Phillips head screw. The core is removed by rotating (unscrewing) counterclockwise and is in proper position when tightened clockwise until a clicking sound is heard. A silicon O-ring around the cartridge's perimeter allows for a secure fit in the urinal housing. Four metal tabs stabilize the cartridge for installation.

Maintenance and Cleaning of The Green Cartridge™

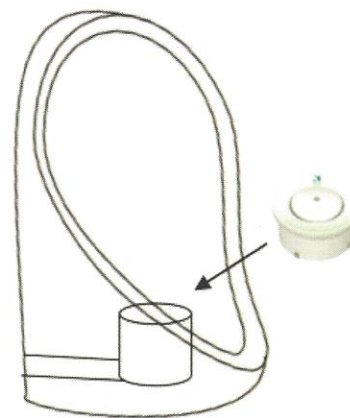

A SPLASH of water mixed with LiquidBreaker cleaning solution once a day will protect the pipes behind the wall. Once a week, or as needed, remove the dome and screen to remove any debris. Inspect the skirts for possible build-up, clean with water and manufacturer recommended cleaning solutions.

Features

- Cartridge housing is permanent; **5 year warranty**
- Cartridge core, depending on maintenance, can last over a year; **90 day warranty**
- Is easily cleaned / maintained with water and acid based cleaners

Benefits

- Eliminates odor
- No more chemicals to deal with
- Easy maintenance with water and common acid based cleansers
- Cleaning with water and acid cleanser will help contain urine struvite build up in plumbing
- The solution to your current frustration and aggravation with waterless urinals
- Installation takes only seconds (see video on website www.LiquidBreaker.com)
- 100's of clients are using and loving The Green Cartridge

Compliance Certification

The Green Cartridge was IAPMO tested and proven to comply with ANSI/ASME A112.19.19-206 for vitreous china non-water urinals.

Dimensions

4-5/8" (117 mm) diameter, upper edge; 4" (102) diameter, middle of cylinder; 3-5/8" (92mm) height, including dome
Weighs 7.4 oz (209 grams)
