NUSCENT

Concentrated Odor Neutralizer

NUSCENT controls & neutralizes offensive odors caused by Nitrogenous and Sulfurous sources. It is a concentrated odor suppressant/deodorizer that is uniquely formulated to control and eliminate foul odors with a three-phase action.

Features and Benefits:

- NON-FLAMMABLE - NON HAZARDOUS - BIODEGRADABLE
- Attacks and deactivates organic odor sources.
- Functions as a deodorant to combine with or replace malodors.
- Leaves a pleasant fragrance in its place.

Recommended Uses:

Sewage Treatment Plants, Catch Basins, Drains, Grease Traps, Urinals, Kennels, Food Service, Petroleum Tanks, Tank Farm Misting Systems, Vacuum Truck Exhaust Systems, Sewage Plants, Trash Bins, Disposals/Compactors

Directions For Use:

Direct Application:

Squirt on urinals, bedpans, dirty bed linen & used bandage collection Area. Apply directly to the surface or mix with water and spray as a mist. Add to rinse water when washing surfaces.

Odor Control:

As an air deodorizer dilute 2-4 oz. per gallon of water. NUSCENT eliminates smoke and other offensive odors. -May be diluted with up to 100 parts water. For adding to drain lines, garbage disposals, refuse containers, etc.

For use with the FOGMASTER SENTINEL II MODEL 5500:

Set controls to pump NUSCENT at the rate of 4-6 oz. per gallon of fresh water.
